Object Oriented Programming

Pass Task 11.1: Draft Learning Summary Report

Overview

The Learning Summary Report is your chance to outline how the work you have completed demonstrates that you have met all of the unit's learning outcomes. In this document you will indicate the grade you are applying for, and provide reasons why you should be awarded this grade based on the unit's assessment criteria.

Purpose: Application for a passing grade in the unit, with justifications against the assessment criteria in preparation for portfolio submission.

Task: Complete the learning summary report.

Time: This task must be completed before the start of week 12 to ensure you can get feedback!

Resources:

Submission Details

You must submit the following files to Doubtfire:

- A PDF document with your description

Make sure that your task has the following in your submission:

- Explanation should clearly demonstrate a good understanding of the structured programming principles and how they relate to the development of software.

- The report is your work and expresses your understanding in your own words. Where ideas and descriptions are related to other people they are appropriate cited and referenced.

Instructions

Download the template for the Learning Summary Report, and prepare a first draft. Try to include some of the following aspects:

- In the report, indicate the grade you think you will be able to achieve.

- Read over the checklist, and make sure you will have the required work to achieve this grade.

- Write something up for the reflections section of the Learning Summary Report, or list some dot points you can expand later.

Submit the draft for feedback, and this will be discussed in the tutorial class in week 12.

> **Tip**: The Learning Summary Report has a **large** impact on your final result. This is the document where you make a case that you should be awarded a certain grade. The more clearly you can demonstrate good quality work in this document the better grade you are likely to receive. Aim to be clear and concise, and refer to the work you have included to demonstrate your understanding.

> **Note**: Week 11 is the last week to submit things for feedback. Make sure you finish off any tasks you have outstanding and make sure you get this weeks material done on time!

> **Note**: The Learning Summary Report will go at the start of your portfolio. It will be followed by all of your programs, hand executions, report, diagrams, etc. In this *summary* just refer to the other pieces included in your portfolio rather than re-writing them here. Think of this like an index referring the reader to other pieces that demonstrate your achievements.
